

Windows Media Player Settings

For the best results in viewing our unemployment benefit videos set the video size to “Fit Player to Video on Start” and 100%.

How to set your Windows Media player video size:

1. Select the View menu by pressing the alt V keys or clicking on that item.
2. Scroll down to select the Video Size item by pressing the enter key or clicking on that item.
3. Scroll down to select “Fit Player to Video on Start” by pressing the enter key or clicking on that item.
4. Scroll down further to select 100% by pressing the enter key or clicking on that item.
